Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): The views of the public were solicited through a posting on the HHC website (<http://www.hhhc.org>). In addition, all clients (and the families of hospice patients) receive patient satisfaction surveys upon discharge. The agency's Corporate Compliance Officer evaluates these surveys, and the results are reviewed with the Board of Directors and Senior Management. We also review the results of the Greater Nashua Community Health Assessment posted on the Nashua, NH city government website.
