

JACKSON WALKER L.L.P.
ATTORNEYS & COUNSELORS

January 19, 2012

NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, NH 03301

Dear Attorney General Delaney:

This law firm represents Strategic Forecasting, Inc., a Delaware corporation, and Stratfor Enterprises, LLC, a Delaware limited liability company (collectively, the “Company”), in connection with a security breach incident that we believe to have taken place in November and December of 2011. Based on information currently available to us, we believe that members of a hacker collective calling themselves “Anonymous” illegally obtained access to the Company’s secured data systems and stole credit card and other personal information of some or all of the Company’s current and past customers. With respect to each affected customer, the personal information that the hackers may have acquired includes the following:

- Name,
- Credit card information,
- Telephone number,
- Email address, and
- Encrypted passwords.

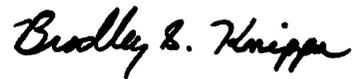

We understand that some or all of the information listed above has been published on the internet by members of the hacker group. Based on information currently available to us, we believe that at least 241 residents or business customers in New Hampshire have been affected by this incident.

Pursuant to New Hampshire state law, we are hereby notifying you of this incident. We have also provided notice to all affected customers of the Company, including the affected residents and business customers in New Hampshire whose information may have been accessed, and we have made our affected customers aware of steps that should be taken to minimize or prevent the misuse of their personal information. In addition to the foregoing, the Company has arranged to provide one year of access to CSID, a leading provider of identity protection and fraud detection services, to customers of the Company whose credit card information has been compromised, at the Company’s cost.

Since becoming aware of the breach of the Company’s data systems, the Company has been working closely with appropriate law enforcement agencies, and the Company continues to actively assist with their ongoing investigations.

In addition to investigating this matter internally, cooperating with law enforcement agencies, working with the Company's affected customers to prevent or minimize the misuse of their personal information, and taking other steps to mitigate the risk of potential harm, the Company is working with its information technology staff and third party security consultants to prevent any future unauthorized access to the Company's information systems.

Sincerely,

A handwritten signature in black ink that reads "Bradley S. Knippa". The signature is written in a cursive, flowing style.

Bradley S. Knippa
