Re: Incident Notification

Dear Attorney General Formella:

We are writing on behalf of our client, U-Haul International, Inc. (U-Haul), to notify your office of a cybersecurity incident that involved New Hampshire residents' information. U-Haul is located at 2727 North Central Avenue, Phoenix, AZ 85004.

On July 12, 2022, U-Haul detected a compromise of two unique passwords. Credentials were used to access a customer contract search tool. The contract search tool allows users to access U-Haul customer contracts. Upon discovering the incident, U-Haul took steps to secure the account and launched an investigation. A cybersecurity firm was engaged to assist. On August 1, 2022, the investigation determined that an unauthorized party accessed some customer contracts using the contract search tool between November 5, 2021, and April 5, 2022. None of U-Haul's financial, payment processing or U-Haul email systems were involved.

U-Haul reviewed the accessed contracts to determine what customer information was involved. On September 7, 2022, U-Haul determined that the contracts accessed included the name and driver's license or state identification number of 7,948 New Hampshire residents.

U-Haul is emailing or mailing via USPS First Class Mail, depending on the contact information available to U-Haul, notification letters to these New Hampshire residents in accordance with N.H. Rev. Stat. Ann. § 359-C:20.¹ A sample of the notification is enclosed. U-Haul is offering impacted individuals a complimentary, one-year membership to credit monitoring

and identity theft protection services. U-Haul has also established a dedicated, toll-free call center that individuals can call to obtain more information regarding the incident.

To reduce the risk of a similar incident from occurring in the future, U-Haul continues to take steps to enhance its existing security protocols.

Please do not hesitate to contact me if you have any questions regarding this matter.

Dear <<Name 1>>:

We are writing to inform you of an incident that involved some of your information. We are providing this notice to explain the incident and measures we have taken, and also to provide some steps you can take in response.

What Happened?

We detected a compromise of two unique passwords that were used to access a customer contract search tool that allows access to rental contracts for U-Haul customers. The search tool cannot access payment card information; no credit card information was accessed or acquired. Upon identifying the compromised passwords, we promptly changed the passwords to prevent any further unauthorized access to the search tool and started an investigation. Cybersecurity experts were engaged to identify the contracts and data that were involved. The investigation determined an unauthorized person accessed the customer contract search tool and some customer contracts. None of our financial, payment processing or U-Haul email systems were involved; the access was limited to the customer contract search tool.

What Information Was Involved?

On August 1, 2022, our investigation determined some rental contracts were accessed between November 5, 2021, and April 5, 2022. After an in-depth analysis, our investigation determined on September 7, 2022, the accessed information includes your name and driver's license or state identification number.

What Are We Doing?

The safety and trust of our customers, including the protection of personal information, is a top priority for U-Haul Company and we take that responsibility very seriously. While the information accessed in this incident did not include payment card information, we fully understand this is an inconvenience to you. We sincerely apologize for that. Please know we are working diligently to further augment our security measures to guard against such incidents and implementing additional security safeguards and controls on the search tool.

Additionally, we are offering affected customers identity theft protection services through Equifax for one year. You can obtain information from these sources about steps an individual can take to avoid identity theft as well as information about fraud alerts and security freezes. You should also contact your local law enforcement authorities and file a police report. Obtain a copy of the police report in case you are asked to provide copies to creditors to correct your records. Contact information for the Federal Trade Commission is as follows:

Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
